Top Ten Mathematics
member school case-study

Dampier Primary School

Led by their passionate maths leader, Jodie, this campus has had two whole-school curriculum days. The first intensive training workshop focused on Place Value and the second focused on Additive Thinking.

Teams have implemented the Top Ten diagnostic assessments and unit plans to support planning.

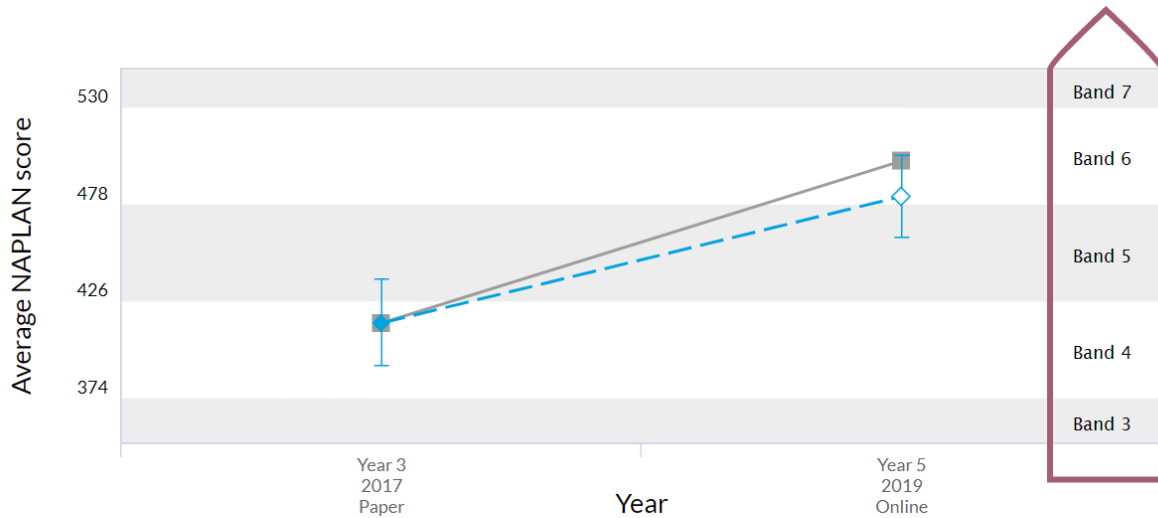

Team leaders have set up their classrooms as exemplary models, with differentiation, expert resource organisation and student reasoning all modelled for incoming team members. The Top Ten program has provided a training approach and model for whole-school consistency in this region, where schools often experience high staff turnover.

Student gain results since implementing Top Ten Mathematics

Before Top Ten – well below all Australian schools standard

Year 3-5 Numeracy 2017-2019 Submit

Year 3-5 Numeracy 2017-2019

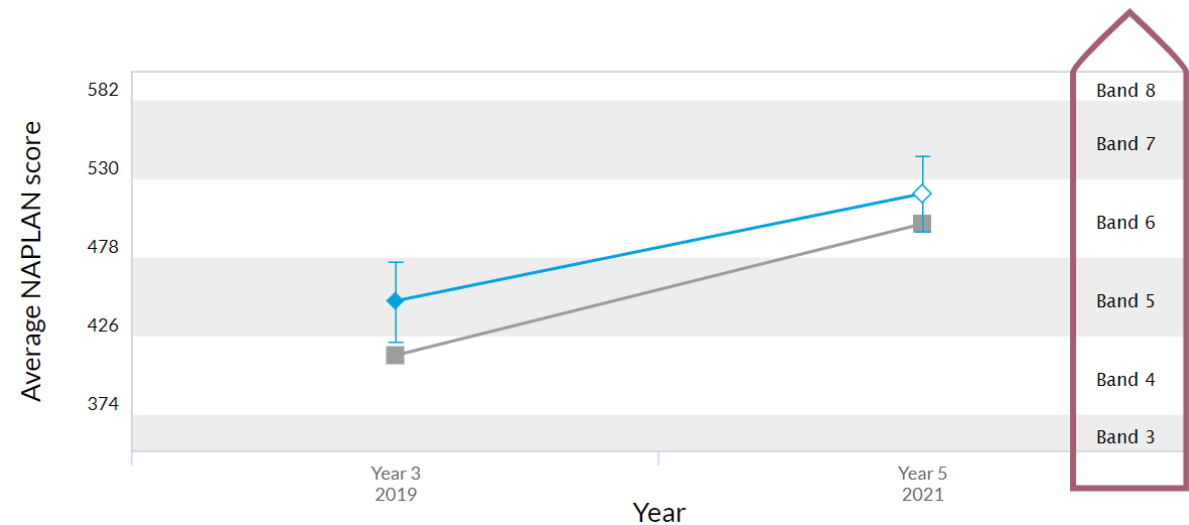

Select categories:

- Selected school
- Students with the same starting score and similar background
- All Australian students

After Top Ten – notably above all Australian school standard

Year 3-5 Numeracy 2019-2021 Submit

Year 3-5 Numeracy 2019-2021

Select categories:

- Selected school
- Students with the same starting score and similar background
- All Australian students
